

INCREASE PROFIT MARGINS & CUSTOMER BASE

Moving Partner Benefits

Fumigation increases your service offering and overall revenue to your bottom line. It's another tool in your toolbox.

You no longer have to turn away business or be concerned if someone is moving because they are suffering with bed bugs.

Bed bugs hide in furniture, mattresses, books, electronics, etc. and can be spread from one location to another during a move .

Our treatment saves customers money by guaranteeing to eliminate any pest infestation.

It ensures customer satisfaction while offering peace of mind.

Fumigation limits your liability in regards to your trucks getting cross-infestation from customer to customer.

We fumigate the moving vehicle to ensure that cross-infestation will not occur and it doesn't cost you a thing.

Unlike most topical chemicals, it is safe because it doesn't adhere to anything, it completely dissipates therefore leaving no residue.

Our network fumigators have performed thousands of 100% successful Vikane® treatments for clients moving to prevent re-infestation of their new dwelling.

We have referred over a thousand new clients to moving partners which has resulted in substantial increases in revenue for them.

Who is Bed Bugs and Beyond?

Bed Bugs and Beyond Consultants is a nationally recognized and trusted, non biased full service brokerage provider. Its only focus is to ensure clients achieve 100% bed bug elimination in a single treatment guaranteed!

Bed Bugs and Beyond exclusively provides fumigation service by leveraging only the most experienced Vikane® fumigation operators to be part of our select network of providers.

Our network fumigators have performed tens of thousands of fumigation treatments to include homes and building structures, containerized vaults, cargo trucks, vehicles, watercraft etc.

To find out how you can benefit from our services, contact Bed Bugs and Beyond at info@bedbugsandbeyond.com or 888-410-1333.

Vikane Facts

Professional pest control firms and their customers have relied on Vikane® gas fumigant for 50 years to solve the toughest pest problems— drywood termites, wood-destroying beetles, bed bugs and more.

A single treatment of Vikane, when used according to label directions, can eliminate all of the pests. Vikane completely dissipates to leave no surface residue, odor or film behind.

Three facts about Vikane explain its special ability to get rid of bed bugs.

1. Vikane is effective against all life stages of bed bugs, including the eggs.
2. There is no resistance of bed bugs to Vikane.
3. Vikane® gas fumigant penetrates into cracks and crevices, into furniture and any other hiding places, to eliminate the pests.

Fumigation with Vikane® is scientifically documented and proven to be 100% successful in killing all bed bugs and their eggs by circulating throughout an entire contained area; producing an effect that interferes with the ability for the bugs and eggs to absorb required oxygen to sustain life, completely killing all bed bugs and their eggs in a single treatment.
